Thank you for pursuing your fertility evaluation with ObGyn Specialists. We look forward to having the opportunity to work with you on this very important part of your care.

Enclosed are female and male fertility history forms and a genetic questionnaire that should be filled out and brought with you to your initial visit with us. This will be a 30-60 minute informational consultation that may or may not include blood work and/or cervical cultures, depending upon any prior work-up you may have had.

Because insurance coverage for fertility services varies greatly from one insurance company to another, we ask that prior to your appointment with us, you contact either your insurance company or our business office to verify your individual benefits.

We appreciate the confidence you have shown in choosing us for your care.
